# The Living Urn

## grow a **LIVING MEMORY**

### WHAT IS THE LIVING URN®?

The Living Urn® is America's first and leading Bio Urn & Planting System designed to grow a beautiful, enduring memory tree, plant or flowers with cremated remains! Honor a loved one when they pass on and celebrate and commemorate all they've given us - the joy, the companionship, the love - and keep their memory present in our lives! Give back and grow a living memory with The Living Urn®.

### WHAT'S INCLUDED?

- ◆ Our Patent Pending BioUrn®
- ◆ RootProtect®, Our Proprietary Ash Agent (counters natural properties of cremated remains that can make the growing environment hard on a young tree)
- ◆ Aged Wood Chips
- ◆ Beautiful Handmade Bamboo Planting Urn Case
- ◆ Planting Instructions
- ◆ A young tree of choice (~2 to 4 foot, depending on tree) from our award winning nursery

The Sand and Gelatin Urns are produced using sustainable materials to create an attractive and environmentally-friendly alternative for families. Each urn is hand-painted by skilled artisans and some designs include real beach sand (or crushed quartz) applied to the outer surface of the urn. The urns have holes in the bottom, to allow water to enter quickly so that they float only briefly and then gracefully sink when placed into water.

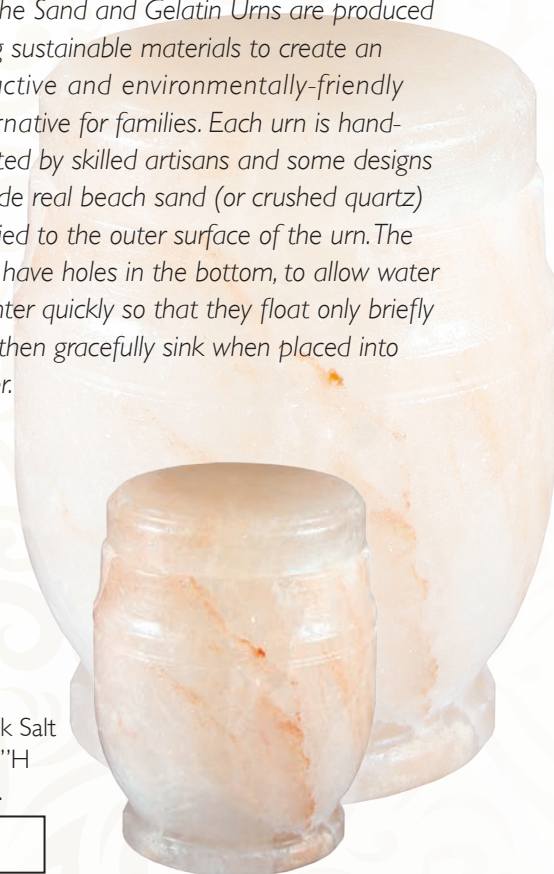

## Himalayan Rock Salt Urn

The Himalayan Rock Salt Urns are individually hand crafted by skilled artisans from solid blocks of Himalayan rock salt. As a result of the handmade and natural qualities of the Salt Urns, each is unique in both color and finish. The urns will dissolve within 4 hours when placed in water.

# Eco-Friendly Scattering Tubes™

These Scattering Tubes are designed and engineered to simplify the scattering process. They are durable, dignified and simple to use. Each Tube features a convenient removable lid and an industry-first, perforated "push in" tab that opens easily prior to scattering. They are available in an Adult and matching Mini size (for those families that wish to split the remains and scatter in more than one location). Tubes contain no metal or plastic components and can be recycled after use.
